## **1. ENVIRONMENTAL REPORTING SYSTEM (ERS) – AN OVERVIEW**

The Environmental Reporting System (from here on referred to as ERS) is the data warehouse for the Base Operations Supply System (BOSS) Hazardous Contracting, Finance and Manifest Tracking data.

ERS data comes from two main areas of BOSS - the Hazardous Line Item (HLI) and the Manifest Line Item (MLI). This data is extracted on a daily basis from BOSS and updated in ERS.

The data is stored in an ORACLE database and DISCOVERER VIEWER formatted reports are set up to run against the database. Once the report has been run, users now have the option of exporting the data and having the data available to use in reports, charts or to load into another database.

Data can be exported in a variety of formats including:

- Microsoft EXCEL (.xls)
- Hyper-Text Markup Language (.htm)
- Text [Tab Delimited] (.txt)
- CSV [Comma Delimited] (.cvs)
- Formatted Text [Space Delimited] (.prn)
- Oracle Reports (.xml)
- Data Exchange Format (.dif)
- Lotus 1-2-3 (.wks)

If you are not familiar with the formats, we recommend that you use either Hyper-Text Markup Language (HTML) or Microsoft EXCEL.

A limited number of personnel within DRMS, have use of an ad hoc tool, DISCOVERER PLUS, to design individual reports.

If you are having problems using ERS DISCOVERER VIEWER or if you need additional data not available in DISCOVERER VIEWER, please contact the DRMS Help Desk:

**HELP DESK**

**DSN - 661-4999**

**Commercial - 1-800-961-4999**

**E-Mail – [helpdesk@mail.drms.dla.mil](mailto:helpdesk@mail.drms.dla.mil)**

## 1.1 GENERAL PROCEDURES

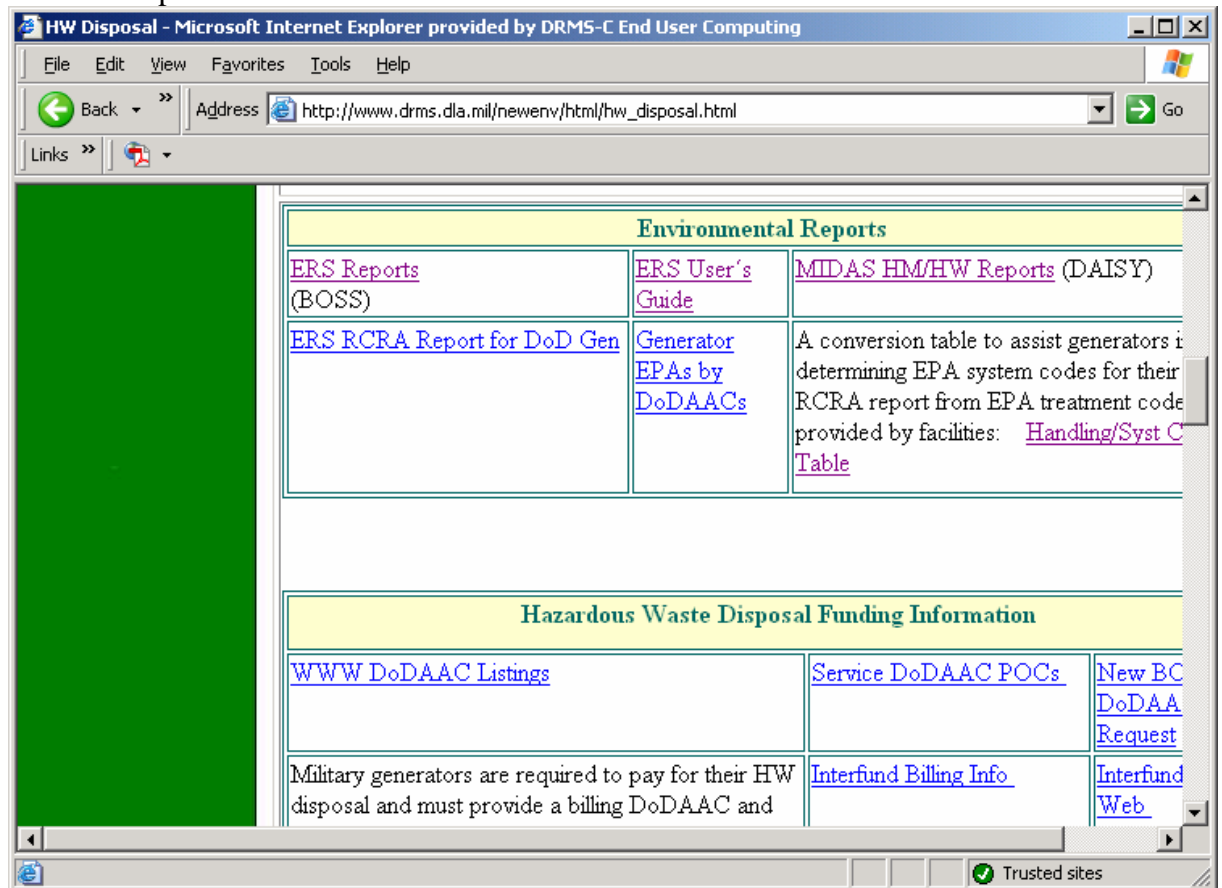

ERS DISCOVERER VIEWER can be accessed via the web. It will run in either Netscape or Internet Explorer. It is not necessary to download any software to access the application. All software runs on the server.

## 1.2 FIRST TIME USERS

1. Access the DRMS home page using either Netscape or Internet Explorer:  
<http://www.drms.dla.mil/>

**NOTE:** Either Netscape or Internet Explorer can be used to access ERS DISCOVERER VIEWER; however, instructions are specific to Internet Explorer.

2. From the DRMS Home page, select – **Environmental**
3. Go to the HW Disposal page, scroll down to Environmental Reports, and click ERS Reports.

4. No User ID or Password is required. You will go directly to the list of VIEWER workbooks. Additional Viewer Reports will be added as developed.
5. Add DISCOVERER VIEWER to your favorites, to allow you to access Viewer directly, without having to go through the DRMS Home Page & Environmental Page:
  - a. Click Favorites from the top line menu
  - b. Click Add to Favorites
  - c. Name the link (ERS Viewer)

- d. Click Ok.
6. Next time access ERS Viewer by bringing up your browser and selecting ERS Viewer from the menu of favorites.

### **1.3 LOGOFF**

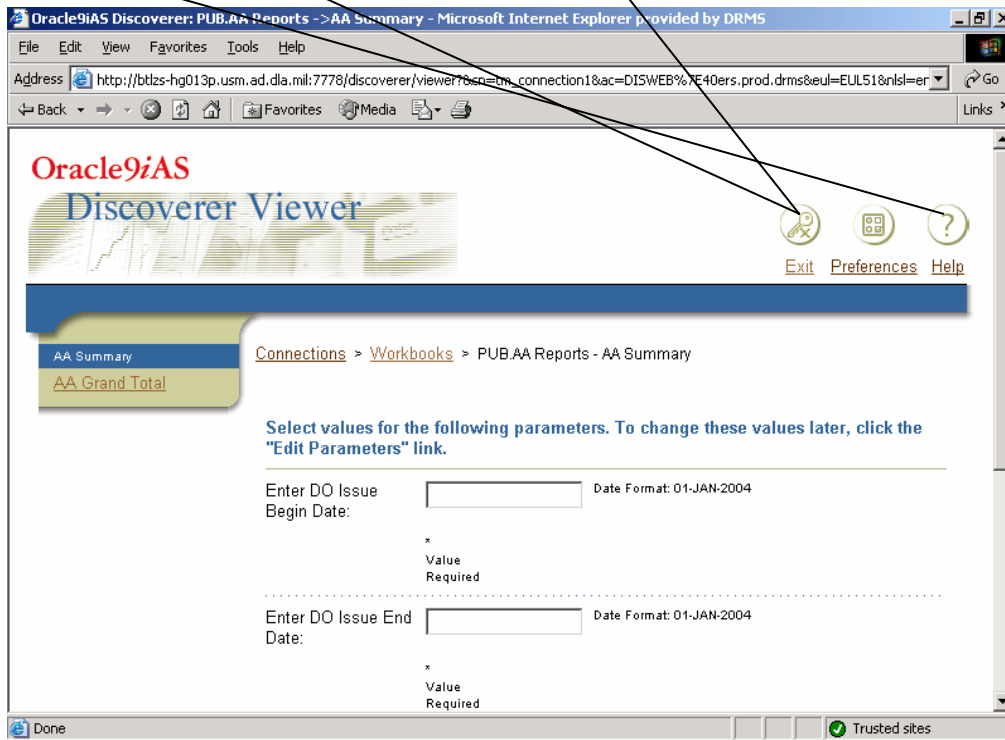

When exiting, first click the exit button, which closes your connection to ERS. Then close your browser (just click the X in the upper right corner). This is the preferred method to exit.

### **1.4 SCREEN BUTTONS/INFORMATION**

In the upper right hand corner are two icons – EXIT & HELP.

EXIT – Click this button to close your connection to ERS, Then use the X to shut the browser or if you are an ad hoc user, you can go into DISCOVERER PLUS from this window.

HELP – brings up help screens.

## **2. WORKBOOK AREA OVERVIEW**

When DISCOVERER VIEWER comes up, the screen includes a workbook list (shown below), which allows you to select a report.

The Workbook List includes a column with the workbook name and a short description of the workbook. Workbooks can contain more than 1 report. An example, PUB.AA REPORTS includes a Summary Report and a Grand Total Report.

The screenshot shows a web browser window titled "OracleAS Discoverer - Microsoft Internet Explorer". The address bar displays the URL: <http://www.drms.dla.mil/discoverer/viewer?us=disweb&pw=disweb&db=ers.prod.drms>. The page content shows "Results: 24 workbooks" and a table with two columns: "Workbook" and "Description".

Workbook	Description
<a href="#">PUB.AA Reports</a>	AA 4 Character HIN Summary Report and Grand Total Report
<a href="#">PUB.AC Reports</a>	AC Generator DoDAAC/UM Summary Report and Grand Total Report
<a href="#">PUB.AE Reports</a>	AE Generator DoDAAC, HIN, Pickup DoDAAC Summary Report and Grand Total Report
<a href="#">PUB.AF Reports</a>	AF Hazardous Item Number Detail Report and Grand Total Report
<a href="#">PUB.AI Reports</a>	AI Generator DoDAAC/HIN/UM Summary Report and Grand Total Report
<a href="#">PUB.AT Report</a>	AT Contract Number Summary and Grand Total Report
<a href="#">PUB.Audit Tracking - Choose MLI Type(s)</a>	Audit Trail Tracking Summary Report and Grand Total Report
<a href="#">PUB.Audit Tracking - HLIs with or without MLIs</a>	Audit Trail Tracking Summary Report and Grand Total Report
<a href="#">PUB.AW Reports</a>	AW Contract Number/Generator DoDAAC Detail Report
<a href="#">PUB.BA Reports</a>	BA 6 Character HIN Summary Report and Grand Total Report
<a href="#">PUB.BB Reports</a>	
<a href="#">PUB.BN Reports</a>	Third Party Disposal Report
<a href="#">PUB.BR Report</a>	Generator DoDAAC Financial Report
<a href="#">PUB.BZ Report</a>	Manifest Summary Report and Grand Total Report

## 2.1 SELECTING A WORKBOOK

To select a workbook, simply click the workbook name. If there are multiple reports in the workbook, you will get a 2<sup>nd</sup> menu; just click the report you want. You will be presented with a parameter screen. See section 3.3 for additional information on parameters.

## 2.2 AVAILABLE WORKBOOKS

Additional workbooks will be added to ERS as developed and may not be documented in this User Guide.

**Note1** – If you would like changes made to a report, report parameters, or a new report developed, please provide your requirements to Robert Provot ([Robert.Provot@dlam.mil](mailto:Robert.Provot@dlam.mil)) or Randy Schmitz ([Randy.Schmitz@dlam.mil](mailto:Randy.Schmitz@dlam.mil)). They will validate the requirement and forward it to systems.

**Note 2** – If you need a special or one time data pull, please contact either Bob or Randy. Please make sure to give at least two days notice for any special queries.

Here is a list of the workbooks available at writing:

AA Report	4 Character HIN Summary Report and Grand Total Report
AC Report	Generator DoDAAC, UM Summary Report and Grand Total Report
AE Report	Generator DoDAAC, HIN, Pickup DoDAAC Summary Report and Grand Total Report
AF Report	Hazardous Item Number Detail Report and Grand Total Report
AI Report	Generator DoDAAC, HIN, UM Summary Report and Grand Total Report
AT Report	Contract Number Summary and Grand Total Report
Audit Tracking – with MLI Data	Audit Tracking Summary Report and Grand Total Report – This report excludes Hazardous Line Item Data without Manifest Line Item Data.
Audit Tracking – with/without MLI Data	Audit Trail Tracking Summary Report and Grand Total Report – This report includes all Hazardous Line Item Data with or without Manifest Line Item Data.
AW Report	Contract Number, Generator DoDAAC Detail Report & Grand Total Report
BA Report	6 Character HIN Summary Report and Grand Total Report
BB Report	6 Character HIN Summary Report by Generator EPA ID Number
BN Report	Third Party Disposal Report
BR Report	Generator DoDAAC Financial Report
BZ Report	Manifest Summary Report and Grand Total Report
CA Report	Waste # Summary by EPA ID w/Manifest Code Summary Report and Grand Total Report
CM Report	Waste Analysis Summary Report, Pickup Manifest Only
CV Report	Cost Summary by Contract
OC Report	Audit – Overaged Hazardous Delivery Order Summary Report and Grand Total Report
PL Report	Delivery Order Detail Report
PN Report	Contract, Delivery Order Overage Summary and Grand Total Report
Disposal Facilities Ranking Report	Disposal Facilities Analysis/Ranking Report. Either based on MLI Quantity or MLI count.
Generating Facilities Ranking Report	Generating Facilities Analysis/Ranking Report. Either based on MLI Quantity or MLI count.
RCRA Report	RCRA Data for DoD Generators
RCRA Report with Designated TSDF Data	RCRA Data for DoD Generators including Designated Treatment Storage Disposal Facility Data.

### **2.3 INPUTTING PARAMETERS**

When you select a workbook, a parameter screen comes up. Input the parameters and click the Apply Parameters button.

- The percent sign (%) is a wildcard in ORACLE. Some fields automatically default to the % sign.
- Some data fields offer the following options for the field:
  - ❖ Exact
  - ❖ Starts With
  - ❖ ContainsThe wild card can be used in conjunction with these selections.
- Some parameter screens have a lookup table (example the MLI Analysis Reports by MLI Count.) Click the flashlight to bring up the tables. Use the arrows to move your selection to the right side. When finished. Click the APPLY button.

### **2.4 TIPS ON PARAMETERS**

1. DISCOVERER VIEWER allows the use of the mouse and the tab key.
2. Dates must be in correct format. DD-MMM-YYYY or as appropriate D-MMM-YY. Example 01-OCT-2003 or 1-OCT-03 is acceptable.
3. DISCOVERER Viewer is not case sensitive – you can use either upper or lower case.
4. If you use bad parameters you may get an empty report or a report that never finishes.
5. Just because you receive an empty report, does not mean that DISCOVERER VIEWER is not working, or that your parameters are bad. Perhaps there was no data for the parameters, or the parameters were entered incorrectly.
6. Data produced is limited by the query parameters. Double-check the parameters prior to submitting the workbook. (You get what you requested, even if it's not what you wanted.)
7. Not all the parameter fields must be populated. However, you must input the Begin Date and the End Date.

Note: The Begin Date and the End Date are based on the Delivery Order Issue Date.

### **3. WORKBOOK FORMATS**

A brief description of each workbook and the associated data fields is given in this section. Remember that additional workbooks are under development; refer to the workbook list for the most up to date information.

### **3.1 AA – 4 Character Hazardous Item Number (HIN) Summary**

This uses HLI data.

**DESCRIPTION:** A summary of ultimate disposal costs sorted by HIN and Unit of Measure for a **given set of query parameters**. Total costs for all HINs are summarized by quantity and unit of measure.

<u>COLUMN LABEL</u>	<u>ASSOCIATED FIELD</u>
HIN	Hazardous Item Number
Quantity	Sum of all Obligated Quantities for that HIN
UM	Unit of Measure for the HIN
COST	Sum of all Obligated Prices
AVG Cost Unit	Derived (Obligated Quantity * Unit Price/ {Sum of all Obligated Quantities}).

**PARAMETER FIELDS:** Begin Date, End Date, Contract Number and Generator DoDAAC (exact, starts with, contains)

**PRINTER ORIENTATION :** Portrait

**SAMPLE:**

HIN	QUANTITY	UM	COST	AVG COST/UNIT
6311	12	EA	\$342.00	\$28.50
6316	3	EA	\$342.00	\$114.00
6321	7	EA	\$813.96	\$116.28
6350	3	EA	\$2,633.40	\$877.80
6360	5	HR	\$285.00	\$57.00
6361	4	HR	\$205.20	\$51.30
6401	4	EA	\$175.12	\$43.78

### **3.2 Grand Total (AA, AC, AE, AF, AI, AM, AT, AW, BA, BZ, CA, CV, OC)**

This uses HLI data.

**DESCRIPTION:** The Grand Total Summary provides the total cost, the total number of records and a breakdown of the grand total by unit of issue, showing the disposal quantity and the cost for the parameters, which were selected.

<u>COLUMN LABEL</u>	<u>ASSOCIATED FIELD</u>
UM	Unit of Measure
Quantity	Sum of all Obligated
Cost	Sum of all Obligated Prices
# of Records	# of Records per line

**PARAMETERS:** Begin Date, End Date – other fields vary by report.

**PRINTER ORIENTATION :** Portrait

SAMPLE:

UM	QUANTITY	COST	# OF RECORDS
EA	48	\$6,060.86	24
HR	13	\$741.00	5
LB	650,563	\$184,368.94	1,639
	<b>Sum:650,624</b>	<b>Sum:\$191,170.80</b>	<b>Sum:1,668</b>

NOTE: All the Grand Totals are in the same format.

**3.3 AC - Generator – DoDAAC/Unit of Measure Summary**

This report uses HLI data and data from the DoDAAC Address Table.

DESCRIPTION: AC generates a list of all the Generator DODAACs related to the query parameters. It lists the cost and quantity for units of measure for each DODAAC.

COLUMN LABEL

Generator DODAAC

Quantity

UM

COST

DODAAC Description

ASSOCIATED FIELD

Generator DODAAC

Sum of Obligated Quantity

Unit of Measure

Sum of all Obligated Prices

Address/Description

PARAMETER FIELDS: Begin Date, End Date, Contract Number and Generator DoDAAC (exact, starts with, contains)

PRINTER ORIENTATION: Portrait

SAMPLE:

GENERATOR DODAAC	QUANTITY	UM	COST	GENERATOR DODAAC DESCRIPTION

				PORTLAND OR 97218-2797

### **3.4 AE – Generator DoDAAC/HIN, Pickup DoDAAC Summary**

AE uses HLI data and data from the DoDAAC Address Table.

**DESCRIPTION:** A summary of the ultimate disposal costs for HINs within a Generator DODAAC.

<u>COLUMN LABEL</u>	<u>ASSOCIATED FIELD</u>
Generator DoDAAC	Generator DoD Activity Address Code
Pickup DoDAAC	Pickup DoD Activity Address Code
Pickup Name	Name Associated with the Pickup DoDAAC
HIN	Hazardous Item Number
Description	HIN Description
Quantity	Sum of all Obligated Quantities for the HIN
UM	Unit of Measure for the HIN
COST	Sum of all Obligated Prices

**PARAMETER FIELDS:** Begin Date, End Date, Contract Number, Generator DoDAAC (exact, contains, starts with) Pickup DoDAAC and HIN.

**PRINTER ORIENTATION:** Portrait

**SAMPLE:**

<b>GENERATOR DODAAC</b>	<b>PICKUP DODAAC</b>	<b>PICKUP NAME</b>	<b>HIN</b>	<b>DESCRIPTON</b>	<b>QUANTITY</b>	<b>UM</b>	<b>COST</b>
FB4479	FB4479	62 SUPS LGS	631000	CONTAINERS FOR REPACKAGING	5	EA	\$290.70
			631100	Repackage waste, 55 gal	5	EA	\$145.35
			631200	Repackage waste, 20-30 gal	5	EA	\$209.30
			635000	TANK CLEANING/SERVICES - (ABOVE GROUND) MOBILIZATION COST	1	EA	\$895.36
			636000	PERSONNEL FOR CLEANING/SERVICING OF TANKS, TOTES, OIL/WATER SEPARATORS - TEAM LEADER	4	HR	\$232.56

### **3.5 AF – Hazardous Item Number Detail Report**

This Reports uses HLI data and Hazardous Item table.

**DESCRIPTION:** A wide detailed line item report.

<u>COLUMN LABEL</u>	<u>ASSOCIATED FIELD</u>
Contract Number	Contract Number
Delivery Order #	Delivery Order Number
RAC	Region Activity Code
HIN	Hazardous Item Number

FSC	Federal Stock Class
DTID	Disposal Turn In Document
DOCNO	BOSS Document Number
UM	Unit of Measure
Quantity	Obligated Quantity
Issue Date	Delivery Order Issue Date
Total Cost	Total Obligated Price
Noun	HIN Description

**PARAMETER FIELDS:** Begin Date, End Date, Contract Number, Delivery Order Number and HIN

**PRINTER ORIENTATION:** Landscape

**SAMPLE:**

CONTRACT NUMBER	DELIVERY ORDER #	RAC	HIN	FSC	DTID	DOCNO	UM	QUANTITY	ISSUE DATE	TOTAL COST
SP440003D0001	0358	7O	990400	9150	W90Y5542529123A	42786557	LB	259	04-OCT-2004	\$75.11

### **3.6 AI - Generator DoDAAC/HIN/UM Summary**

AI uses HLI data and data from the Hazardous Item Table and the DODAAC Address Table.

**DESCRIPTION:** A summary of HINs displaying unit of measure, quantity, and cost, sub-totaled by Generator DODAAC within a contract

<u>COLUMN LABEL</u>	<u>ASSOCIATED FIELD</u>
Generator DoDAAC	Generator DoD Activity Address Code
DoDAAC Description	Name Associated with the Generator DoDAAC
HIN	Hazardous Item Number
HIN Description	HIN Description
Quantity	Sum of Obligated Quantities for that HIN
UM	Unit of Measure for the HIN
COST	Sum of all Obligated Prices

**PARAMETER FIELDS:** Begin Date, End Date, Contract Number, Generator DoDAAC(exact, starts with, contains) and HIN

**PRINTER ORIENTATION:** Landscape

SAMPLE:

GENERATOR DODAAC	DODAAC DESCRIPTION	HIN	HIN DESCRIPTION	UM	QUANTITY	COST
FB4479	62 SUPS LGS	9102RR	IGNITABLE - CONTAINERIZED LIQUIDS/MULTI-PHASE -- MANDATORY RECYCLING	LB	263	\$84.16

SP440000D0018	ASBURY ENVIRONMENTAL SERVICE	\$121,166.59	936

### **3.8 Audit Trail Tracking Summary Reports**

The audit trail tracking summary uses HLI and MLI data. There are two workbooks:

- Audit Trail Tracking – Choose MLI - allows the user to restrict the MLI Type
- Audit Trail Tracking - HLIs with/without MLIs - returns all Hazardous Line Items even those without MLI data and returns all the MLI data (Pickup, Interim and Disposal) currently populated for the HLI data.

**DESCRIPTION:** A detailed summary tracking report, broken down by Contract Number and Issue Date.

#### **COLUMN LABEL**

PRINTER ORIENTATION: Landscape

SAMPLE:

HIN	OBL QUANTITY	PU QUANTITY	UM	COST	AVG. COST/UNIT	DESCRIPTION
631000	5	5	EA	\$290.70	\$58.14	CONTAINERS FOR REPACKAGING
631100	50	41	EA	\$1,453.50	\$29.07	Repackage waste, 55 gal
631200	5	0	EA	\$209.30	\$41.86	Repackage waste, 20-30 gal
631400	6	6	EA	\$174.42	\$29.07	Repackage 4' flourescent tube box [See C.19a]

### **3.11 BB – 6 Character HIN by EPA ID # Summary Report**

BB uses HLI data and the HIN Name from the Hazardous Item Table.

DESCRIPTION: The 6 Character HIN Summary provides a summary of ultimate disposal costs by HIN (6 Character field, listing each suffixed HIN).

#### COLUMN LABEL

HIN  
Description  
UM  
Obl Qty  
AVG Cost Unit  
  
COST

#### ASSOCIATED FIELD

Hazardous Item Number  
HIN Description  
Unit of Measure for the HIN  
Sum of all Obligated Quantity for that HIN  
Derived (Obligated Quantity \* Unit Price/ {Sum  
of all Obligated Quantities}) Description  
Sum of all Obligated Prices

PARAMETER FIELDS: Begin Date, End Date, Generator EPA ID, Contract Number and HIN.

PRINTER ORIENTATION: Portrait

SAMPLE:

HIN	DESCRIPTION	UM	OBL QUANTITY	AVG. COST/UNIT	COST
631000	CONTAINERS FOR REPACKAGING	EA	10	\$58.14	\$581.40
631100	Repackage waste, 55 gal	EA	91	\$29.07	\$2,645.37
631200	Repackage waste, 20-30 gal	EA	5	\$41.86	\$209.30

### **3.12 BN – Third Party Disposal Record**

BN uses HLI data and MLI Data.

**DESCRIPTION:** The BN report provides a detailed record by Disposal Facility EPA ID # or by Facility Name. The first workbook keys on the Facility ID Number. The second workbook keys on the facility name.

<u>COLUMN LABEL</u>	<u>ASSOCIATED FIELD</u>
Contract Number	Contract Number
DO #	Delivery Order Number
Issue Date	Delivery Order Issue Date
DOCNO	BOSS Document Number
DTID	Disposal Turn-In Document Number
HIN	Hazardous Item Number
Pickup DoDAAC	Pickup DoD Activity Address Code
Order Qty	Obligated Qty
Amount	Obligated Price
MFST #	Manifest Document Number
TSDF Facility	Designated TSDF EPA ID
Facility Name	Facility Name
Disposal Qty	Disposal Quantity
UM	Unit of Issue
# of Containers	Number of Containers
Container Type	Container Type
State MFST #	State Manifest #
DRMO Name	DRMO Name
Noun	Noun Description
WST Codes	Up to 6 EPA Waste Codes
HNDL Code	Up to 4 Handling Codes

**PARAMETER FIELDS:** Begin Date, End Date, Generator EPA ID or Facility Name{exact, starts with, contains} (depending on which query in the workbook was chosen.)

**PRINTER ORIENTATION:** Landscape requires 2 sheets per page.

**SAMPLE:**

This report is too large to display a sample.

### **3.13 BR – Generator DoDAAC Financial Report**

This report pulls HLI data.

**DESCRIPTION:** This report provides a detailed financial report.

<u>COLUMN LABEL</u>	<u>ASSOCIATED FIELD</u>
Generator DoDAAC	Generator DoDAAC
Pickup DoDAAC	Pickup DoDAAC
Pay DoDAAC	Pay DoDAAC
HIN	Hazardous Item Number

DRMO Name	DRMO
Contract #	Contract Number
DO #	Delivery Order Number
DOCNO	BOSS Document Number
Issue DT	Delivery Order Issue Date
DTID	Disposal Turn In Document
MILS Fund Cd	MILSBILLS Fund Code
Obligated QTY	Obligated Quantity
Obligated Price	Obligated Price
UM	Unit of Measure
Pickup Qty	Pickup Quantity
Noun	HIN Description

PARAMETER FIELDS: Begin Date, End Date, Generator DoDAAC (exact, starts with, contains), Pay DoDAAC (exact, starts with, contains)

PRINTER ORIENTATION: Landscape (requires legal paper)

SAMPLE:

This report is too large to display a sample.

**3.14 BZ – Manifest Summary Report**

This Report pulls using both HLI and MLI data.

DESCRIPTION: This report is a detailed contract audit report. The report provides all current manifest data within the specified parameters.

<u>COLUMN LABEL</u>	<u>ASSOCIATED FIELD</u>
DRMO Name	DRMO Name
Contract #	Contract Number
DO #	Delivery Order Number
Issue DT	Delivery Order Issue Date
DOCNO	BOSS Document Number
DTID	Disposal Turn In Document
HIN	Hazardous Item Number
Pickup DODAAC	Pickup DODAAC
Order QTY	Sum of Obligated Quantity
Amount	Sum of Obligated Unit Price
Manifest Type	Manifest Type: P, I, D, R
Manifest Generator Facility	Generator EPA ID Number
MFST #	Manifest Number
Manifest Designated Facility	Designated TSDF
Manifest QTY	Manifest Quantity
UM	Unit of Measure
Number of Containers	Number of Containers
Container Type	Container Type
State MFST #	State Manifest Number
Transporter Facility	Transporter EPA ID

Noun	Noun Description
Waste (1-6)*	EPA Waste Code
Handling (1-4)*	Handling Code

**PARAMETER FIELDS:** Begin Date, End Date, Contract Number, Delivery Order Number (exact, starts with, contains) and BOSS Document Number

**PRINTER ORIENTATION:** Landscape (requires legal paper and 3 sheets per row.)

**SAMPLE:**

This report is too large to display a sample.

\* - Report Limitations – Due to space constraints:

Field	Limitation
Waste Codes	6
Handling Codes	4

**3.15 CA – Waste # Summary by EPA ID**

CA uses data from the HLI and the TSDF Table.

**DESCRIPTION:** This report shows the number of manifests generated by Waste ID and Generator Facility.

<b><u>COLUMN LABEL</u></b>	<b><u>ASSOCIATED FIELD</u></b>
Waste ID	EPA Waste Number
Generator Facility	EPA Facility ID for Generation
Facility Name	Name associated with Facility ID
Address	Facility Address
City	Facility City
State	Facility State
Manifest Type	Manifest Type
Num Manifests	Number of Manifests

**PARAMETER FIELDS:** Begin Date, End Date, Contract Number and Generator DoDAAC

**PRINTER ORIENTATION:** Landscape (requires legal size paper)

**SAMPLE:**

This report is too large to display.

### **3.16 CM – Waste Code Analysis Summary Report (Pickup Manifest Only)**

CM uses MLI data only.

DESCRIPTION: summary report is broken down by DRMS ID (CONUS, OCONUS) and EPA waste code.

<u>COLUMN LABEL</u>	<u>ASSOCIATED FIELD</u>
Location	CONUS/OCONUS
Waste ID	EPA Waste Code
Description	Description of the waste code
UM	Unit of Measure
Quantity	Sum of Obligated Quantities
Cost	Sum of Obligated Prices
AVG/COST	Derived (Obligated Quantity * Unit Price/ {Sum of all Obligated Quantities})

PARAMETER FIELDS: Begin Date, End Date, Contract Number and Generator DoDAAC

PRINTER ORIENTATION: Portrait

SAMPLE:

LOCATION: CONUS

WASTE ID	DESCRIPTION	UM	QUANTITY	COST	AVG/COST
D001	Ignitability	LB	48267	\$29,395.10	\$0.61
D002	Corrosivity	LB	23795	\$6,511.12	\$0.27
D003	Reactivity	LB	4753	\$6,491.40	\$1.37
D004	Arsenic	LB	25577	\$7,207.10	\$0.28

### **3.17 CV – Cost Summary by Contract**

CV uses HLI data.

DESCRIPTION: A summary of obligated and disbursed costs and quantities.

<u>COLUMN LABEL</u>	<u>ASSOCIATED FIELD</u>
Contract Number	Contract Number
Delivery Order #	Delivery Order Number
RAC	Region Activity Code
DTID	Disposal Turn In Document
UM	Unit of Measure
Obligated Quantity	Obligated Quantity
Obligated COST	Sum of Obligated Prices
Disbursed Quantity	Disbursed Quantity
Disbursed Cost	Sum of Disbursed Prices

PARAMETER FIELDS: Begin Date, End Date, Contract Number, Delivery Order Number, Generator DoDAAC and HIN

PRINTER ORIENTATION: Portrait

SAMPLE:

CONTRACT #	DELIVERY ORDER #	RAC	DTID	UM	OBLIGATED QUANTITY	OBLIGATED COST	DISBURSED QUANTITY	DISBURSED COST
SP440003D0001	0172	BA	W90Y5432665000	LB	50	\$14.00	50	\$14.00
			W90Y5432665001	LB	184	\$51.52	184	\$51.52
			W90Y5432665002	LB	85	\$23.80	85	\$23.80
			W90Y5432665003	LB	69	\$18.63	69	\$18.63
			W90Y5432665006	LB	84	\$23.52	84	\$23.52

### **3.18 OC – Overage Hazardous Delivery Orders**

OC uses HLI data and the HIN description from the Hazardous Item Table.

DESCRIPTION: This report provides the delivery order lines that are still open.

#### COLUMN LABEL

Contract Number

### **3.19 PL – Delivery Order Detail Report**

PL uses both HLI and MLI data.

**DESCRIPTION:** This report was designed by contracting to show detail data against a specific contract and delivery order number. There are two Queries in the workbook:

- PL Delivery Order Detail Report – HLIs with/without MLIs
- PL Delivery Order Detail Report – Choose MLI Type.

This report pulls the 2,000 character noun description, so care should be used to keep query parameters small. Use a specific contract number and do not pull over a year's worth of data.

<u>COLUMN LABEL</u>	<u>ASSOCIATED FIELD</u>
Contract Number	Contract Number
DEL ORD #	Delivery Order Number
Pickup DoDAAC	Pickup DoDAAC
DoDAAC Address	Address Associated with DoDAAC
Issue DT	Delivery Order Issue Date
RDD	Required Delivery Date
CLIN	Contract Line Item Number

UM	Unit of Measure
HIN	Hazardous Item Number
MFST	Manifest Number
OBL QTY	Obligated Quantity from HLI
Designated Facility	Designated Facility
DSPL TNSP	Disposal Transporter
Noun	2000 Character Noun Description
Waste Codes	Waste Codes
QTY	Pickup QTY for P Manifests
	Disposal QTY for D Manifests

**PARAMETER FIELDS:** Begin Date, End Date, Contract Number, Manifest Type and Delivery Order Number

**PRINTER ORIENTATION:** Landscape (with adjustment of the columns in EXCEL and taking the percentage down to 90% this data can be printed on legal paper).

**SAMPLE:**

This report is too large to display.

**NOTE:** Keep data range small, or when downloaded to EXCEL, your PC may lockup due to memory constraints.

### **3.20 PN - Contract/Delivery Order Overage Report**

This Report uses HLI data.

**DESCRIPTION:** This report is used to audit overage delivery orders.

<u>COLUMN LABEL</u>	<u>ASSOCIATED FIELD</u>
Contract #	Contract Number
Delivery Order #	Delivery Order Number
BOSS Document	Boss Document Number
HIN	Hazardous Item Number
Obligated Quantity	Sum of the Obligated Quantity

### **3.21 Ranking MLI Analysis Reports – Disposal Facilities**

This report uses HLI & MLI data.

**DESCRIPTION:** This workbook includes two worksheets, ranking by:

- Manifest Line Item Count,
- Manifest Quantity.

You can select a specific unit of measure, multiple units of measure or move all the units of measure over. To select the unit of measure parameters, click on the flashlight, it will bring up a list of values. Use the arrows to move the value to the right hand column. When

finished making your selection, click the APPLY button, which takes you back to the initial parameter screen. Click the apply parameters button.

**Note:** If you are using the manifest quantity report, mixing units of measure skews the data.

## 4. QUERY SCREEN INFORMATION

Below the name of the report on the screen are selections of menu buttons (see screen print). These buttons allow you to manipulate your data.

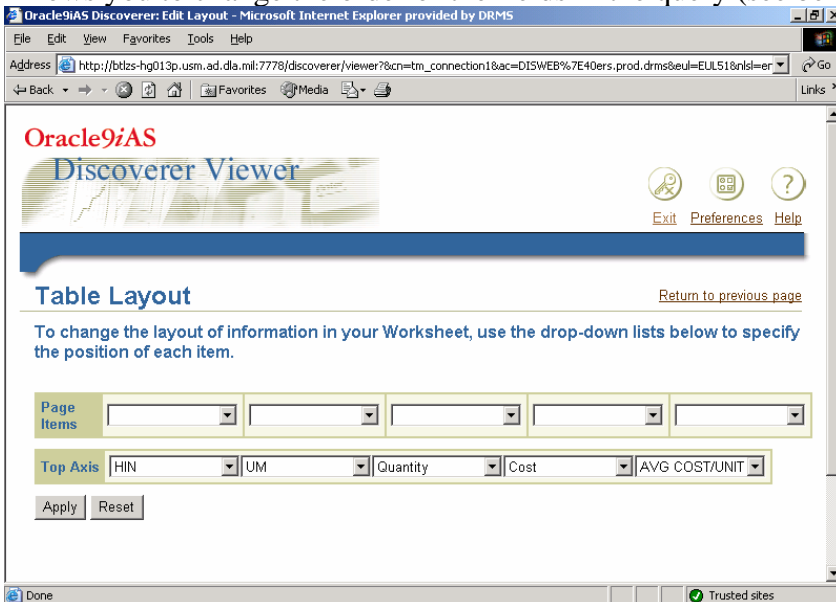

### 4.1 Rerun Query

Allows you to rerun the query. Clicking the rerun query button automatically reruns the query with the original parameters.

### 4.2 Table Layout

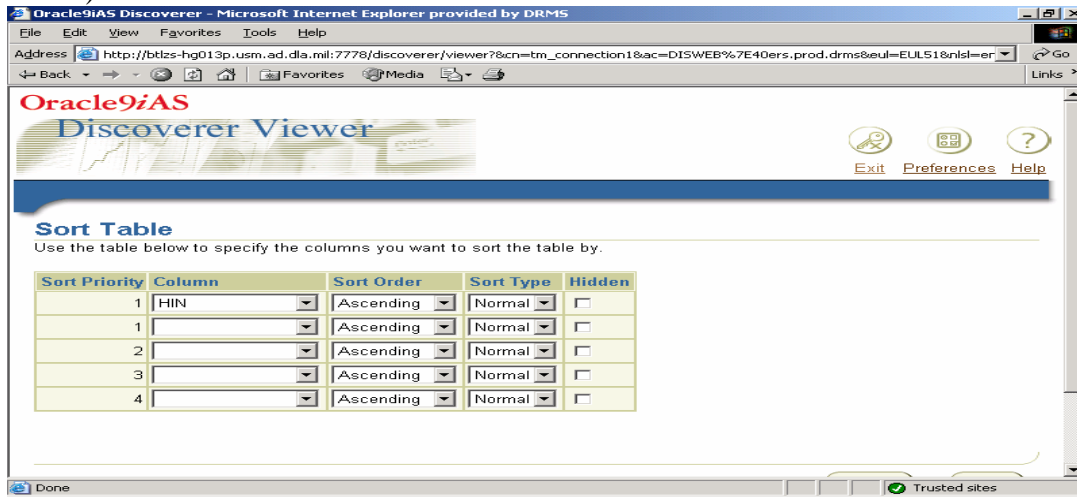

Allows you to change the order of the fields in the query (see below):

Example: click the arrow next the fields you want to change and select the field name for that position. When finished changing the fields, click APPLY. The report will display in the order you selected.

### 4.3 Sort

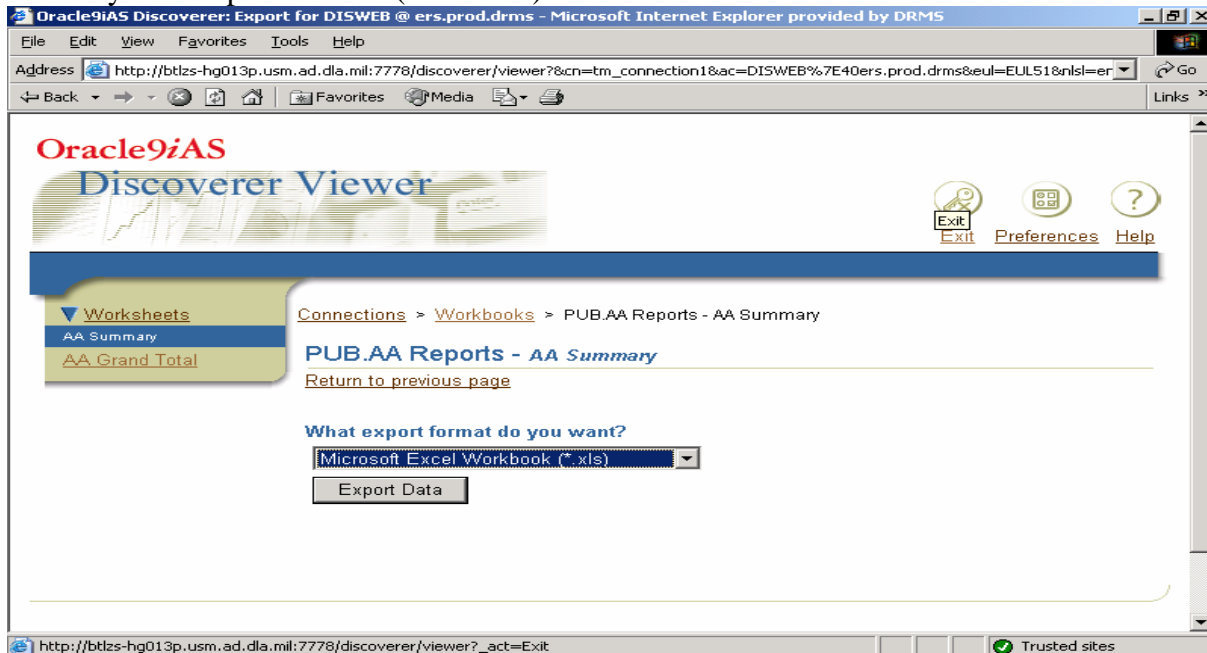

Allows you to change the sort order by clicking the arrows and changing the sort order (see below)

You can change the fields for the sort and the order (ascending or descending). You can also hide the field.

### 4.4 Export Data

Allows you to export the data (see below):

You can select the format for the export from the drop down. There are a variety of formats for export including:

- Microsoft EXCEL (.xls)
- Hyper-Text Markup Language (.htm)

- Text [Tab Delimited] (.txt)
- CSV [Comma Delimited] (.csv)
- Formatted Text [Space Delimited] (.prn)
- Oracle Reports (.xml) {Requires user to have Oracle Reports on their system}
- Data Exchange Format (.dif)
- Lotus 1-2-3 (.wks)

If you are not familiar with the formats, we recommend that you use either Hyper-Text Markup Language (HTML) for a static copy or Microsoft EXCEL if you want the data to use in a report.

#### **4.4.1 Exporting Using Microsoft EXCEL**

To export your data into an EXCEL spreadsheet:

Click the EXPORT DATA button.

Select EXCEL from the drop down menu.

Click the export button.

EXCEL sends you a message that the document contains macros – click yes.

Data will display in EXCEL.

Note: you must have your security options set to medium within EXCEL to be able to successfully export the data. To check/change your options - Start EXCEL, select tools, macro, security. Change the security level to medium. Click Okay. Exit EXCEL.

##### **4.4.1.1 Formatting Data in EXCEL**

When the data is exported, the title and the conditions, end up in the first column, which makes the first column BIG. If we delete the title and conditions prior to the export, both would also be missing from the printable copy of the report, which is unacceptable. So, we are providing a work around:

Option 1 – Spreading the title & conditions across several columns

With Cursor in the first column, select format

Select column width

Size column as appropriate

Use print preview to see if title & conditions will display – if not

Highlight multiple columns

Click the merge & center icon

Select Format

Cells

Alignment

Wrap text

Slide height of row to display entire title & conditions.

Option 2 – Delete the title & conditions/resize column

With Cursor in the first column - first row, select Edit

Select Delete

Select Entire Row

Format

Column Width

Size as appropriate.

#### **4.4.2 Exporting Using Hyper Text Markup Language (HTML)**

If you do not want to manipulate the data and only want to include the data in a report (similar to the sample reports in this document, or you want to save the report to a file, you can export the data to HTML. For this example we will use the BA report.

To export your data into HTML:

Click the EXPORT DATA button.

Select HTML from the drop down menu.

Click the Export button.

##### **4.4.2.1 Copying Data into Your Document**

Highlight the data you want to copy into your document.

Click CONTROL C

Go to your document and move to where you want the data copied.

Click CONTROL V

##### **4.4.2.2 Copying Data into a File**

With the report on the screen:

Click File

Save As

Name your report

Select file format web page (html).

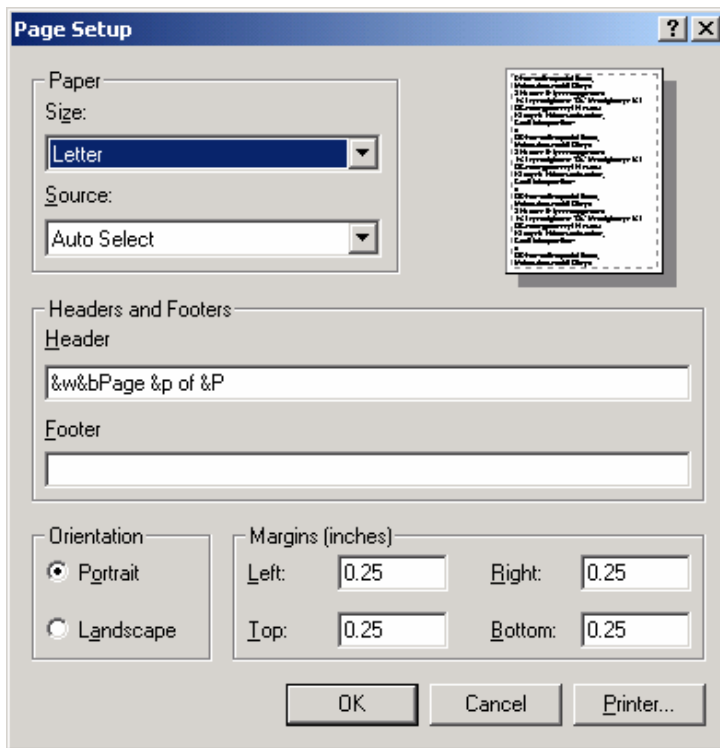

Make sure and note the directory you will be using to save the file.

Click Save.

#### **4.5 Printable Page**

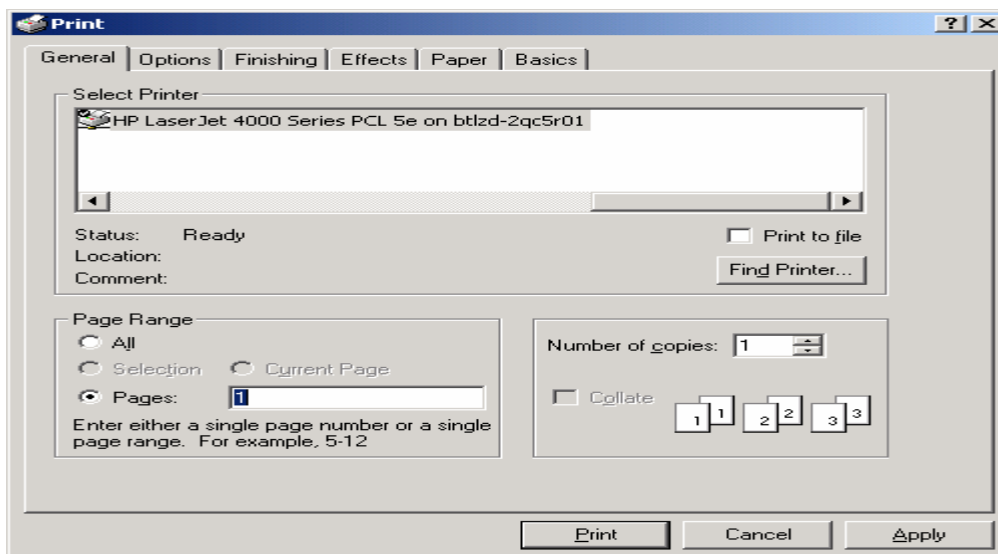

Brings up the report in a printable format (not recommended for reports containing large amounts of data such as the BZ or PN report).

Click PRINTABLE PAGE button, select file, page setup from the top line menu. Check your margins and printer orientation. Recommendations for the margins are on the example below. Then click okay.

#### 4.5.1 PRINTING

Either click the printer on the top line menu, or if you only want to print several pages of the report, click file, print, select the range and click OKAY.

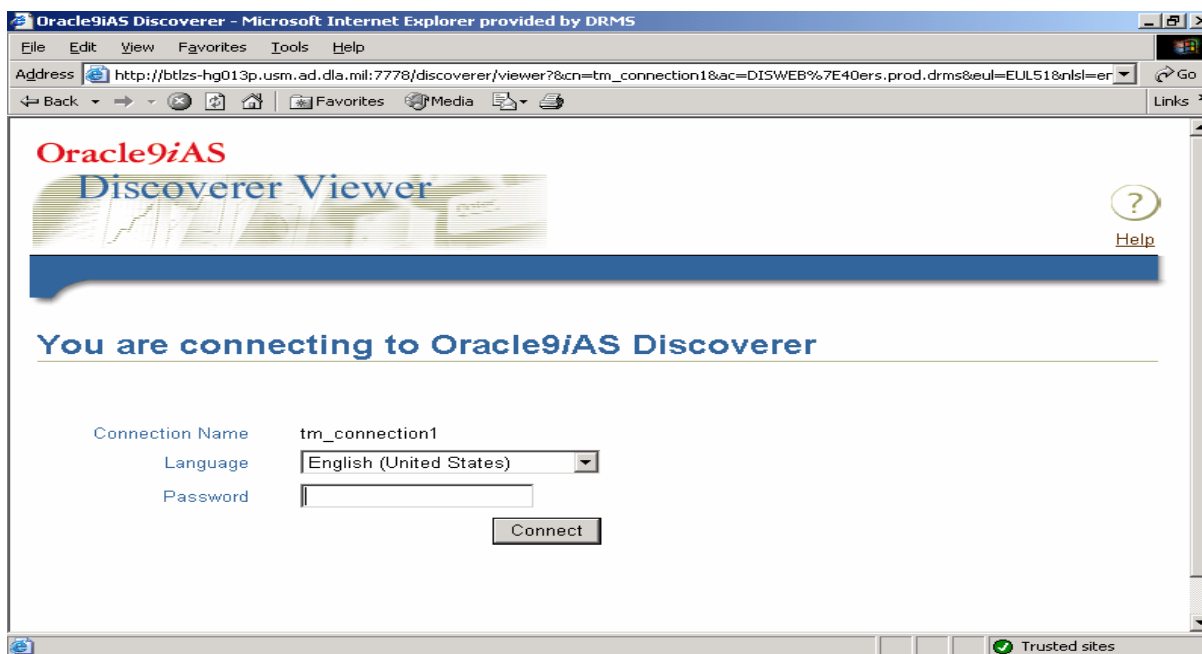

## 5. ERRORS

### 5.1 TIME OUT

If your DISCOVERER VIEWER session is idle for more than 15 minutes, your session will be timed out. You will get the following screen, when you try and execute any commands:

You must initiate a new session.

## 6.0 Data Fields & Acronyms (Arranged Alphabetically)

**BOSS** - Base Operations Support System

**BOSS Doc #** - The Base Operations Support System Number - Assigned by the system at the time of input into BOSS. (8 character numeric field; i.e. 73466645). The 1<sup>st</sup> character is the last digit of the calendar year, the next three are the Julian date of input and the last 4 are a sequential number assigned by the system within a range of 6000-9999.

**Contract #** - The Hazardous Contract Number. (13 character alpha/numeric field; i.e. SP440098D0001).

**Date Range** - Two fields Begin Date and End Date

**Del Ord** - Delivery Order Number. (4 character alpha/numeric field; i.e. JA01 or 0023)

**DTID Number** - Disposal Turn-In Document Number.

**DODAAC** - Department of Defense Activity Address Code - refer to DTID Number

**ERS** - Environmental Reporting System - a data warehouse storing Hazardous Disposal historical information.

**Fund Code** - Fund Code assigned to the Generating Activity (2 character alpha/numeric field; i.e. 2C)

**Gen DOD** – Generator DoDAAC

**Generator Number** - EPA Identification Number assigned to the base. (12 character alpha/numeric field, i.e. )

**Hand Cd** - Waste Handling Code (3 character alpha/numeric field; i.e. S01)

**HIN** - Hazardous Identification Number (6 character alpha/numeric field; i.e. 920200)

**HLI** - Hazardous Line Item

**LIC** - DRMO Like Item Code, assigned by DRMS-CCI. Use only the assigned code for your DRMO. (2 character alpha/numeric field; i.e. DRMO Anchorage = 7B)

**Manifest Numbers (State)** - Self Explanatory (8 character alpha/numeric field)

**Manifest Numbers (MLI)** - Self Explanatory (5 character alpha/numeric field)

**Manifest Type** – Pickup = P; I = Interim; D = Disposal

**MLI** - Manifest Line Item

**PIIN** - Procurement Instrument Identification Number (the Contract Number, a dash, then the Delivery Order Number; i.e. SP440098D0001-0027).

**PMT** - Funding Agency Payment Code (1 character alpha field) A = Army, N = Navy, D = DLA, C = Coast Guard, F = Air Force, O = Other.

**PU-DODAAC** - DODAAC of the pickup site

**QTY** - Quantity (numeric field - length varies)

**RAC** - Region Activity Code (3 character alpha field; i.e. DRMO Lewis = WLC)

**RAID** - Rapid Access to Information in DLA Hazardous Systems (obsolete, replaced by ERS)

**RCRA** – Resource Conservation and Recycling Act.

**Transporter Number** - Identification Number assigned to Transporter (12 character alpha/numeric; i.e. TXD074196338)

**TSDF Number** - Identification Number assigned to the Treatment, Storage, Disposal Facility [TSDF] (12 character alpha/numeric; i.e. ARD069748192)

**Type Cd**- Manifest Type Code ; P = Pickup, I = Interim, D = Final, R = Return to DRMO (1 character alpha field; i.e. P)

**UM** - Unit of Measure (2 character alpha field; i.e. EA)

**Vendor** - Contractor (5 character alpha/numeric field; i.e. 0CZ32)

**Waste Num** - Waste Code (4 character alpha/numeric field; i.e. D001)
